'The Dutch Overseas Empire sets out, in its own words, to understand the Dutch Empire as fully as possible "from the inside out and from the outside in", a goal it admirably achieves. A wide-ranging, detailed and thought-provoking exploration of everything from military expansion to medicine, philology to painting, and early consumerism to comparative colonialisms, this is a fascinating, lucidly-written study that sheds new light on the past as well as on the world as we now know it.'

RONIT RICCI

Hebrew University of Jerusalem

'Emmer and Gommans' remarkable new history is bristling with fresh ideas, approaches and conclusions about how we should understand Dutch overseas expansion and commercial empire. It impressively covers the entirety of Dutch imperial history, East and West, and it analyses, likewise expertly, the several political, economic and cultural angles of early modern empire. It is sure to become the standard reference in the field.'

BENJAMIN SCHMIDT

University of Washington

Front cover: Kamrup and his companions at the port of Hugli-Chinsura in Bengal. Detail of an illustration from the *Dastur-i Himmat* produced in Murshidabad (Bengal, India), c. 1755–60.
